

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/US04/31933

## A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : C12N 5/02, 5/06; A61B 17/42, 17/435, 17/46  
US CL : 435/325, 374; 424/93.1, 93.7; 600/33, 34

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. :

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)  
Medline, CAPlus, USPat, USPGPub, EPO, JPO, Derwent

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	US 2002/0098470 A1 (TONER et al) 25 July 2005 (25.07.2005), whole document, especially pages 1-3.	1-51, 57-71 and 100-105
Y	EBNER et al, Elective Transfer of Embryos Selected on the Basis of First Polar Body Morphology is Associated with Increased Rates of Implantation and Pregnancy, Fertility and Sterility. October 1999, Vol. 72. No. 4, pages 599-603, whole document.	1-51 and 57-71
Y	WELLS et al, First Clinical Application of Comparative Genomic Hybridization and Polar Body Testing for Preimplantation Genetic Diagnosis of Aneuploidy. Fertility and Sterility. September 2002, Vol. 78. No. 3, pages 543-549	1-51, 57-71 and 100-105
Y	GOOK et al. Cryopreservation of mouse and human oocytes using 1,2-propanediol and the configuration fo the meiotic spindle. Human Reproduction. 1993, Vol. 8. No. 7, pages 1101-1109.	17 and 27-31
A	MARTINI et al, Analysis of unfertilized oocytes subjected to intracytoplasmic sperm injection using two rounds of fluorescence in-situ hybridization and probes to five chromosomes, Human Reproduction, 1997, Vol. 12. No. 9, pages 2011-2018, whole document	100-105

Further documents are listed in the continuation of Box C.

See patent family annex.

### \* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family

Date of the actual completion of the international search

17 March 2005 (17.03.2005)

Date of mailing of the international search report

11 MAY 2005

Name and mailing address of the ISA/US

Mail Stop PCT, Attn: ISA/US  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Facsimile No. (703) 305-3230

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/US04/31933

## Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☒ Claims Nos.: 52  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:  
Claim 52 appears to be incomplete. There are no "freezing protocols" listed.
3. ☒ Claims Nos.: 53-56, 72-99 and 106-126  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest ☐ The additional search fees were accompanied by the applicant's protest.  
☐ No protest accompanied the payment of additional search fees.
